**Batch Recorder provides additional functionality to Sage Line 50 to record Batch or Serial Numbers against stock transactions and Sales Invoices.**

- Record Batch Details at Goods In
- Record Batch Details at Goods Out
- Select Batch within Sales Invoicing
- Record Sales History Information
- Audit Trail

**The system is ideal for any company with a batch / lot number recording. Small companies can comply with the latest EC regulations regarding batch recording.**

***BatchRecorder***

Gave us the ability to comply with Traceability without the need of an expensive replacement to Sage Line 50.

The system is simple to operate and gives us all the information all we require.

***BatchRecorder***

Support has been excellent
